

**WP-721 Rooster  
Silhouette Pattern**

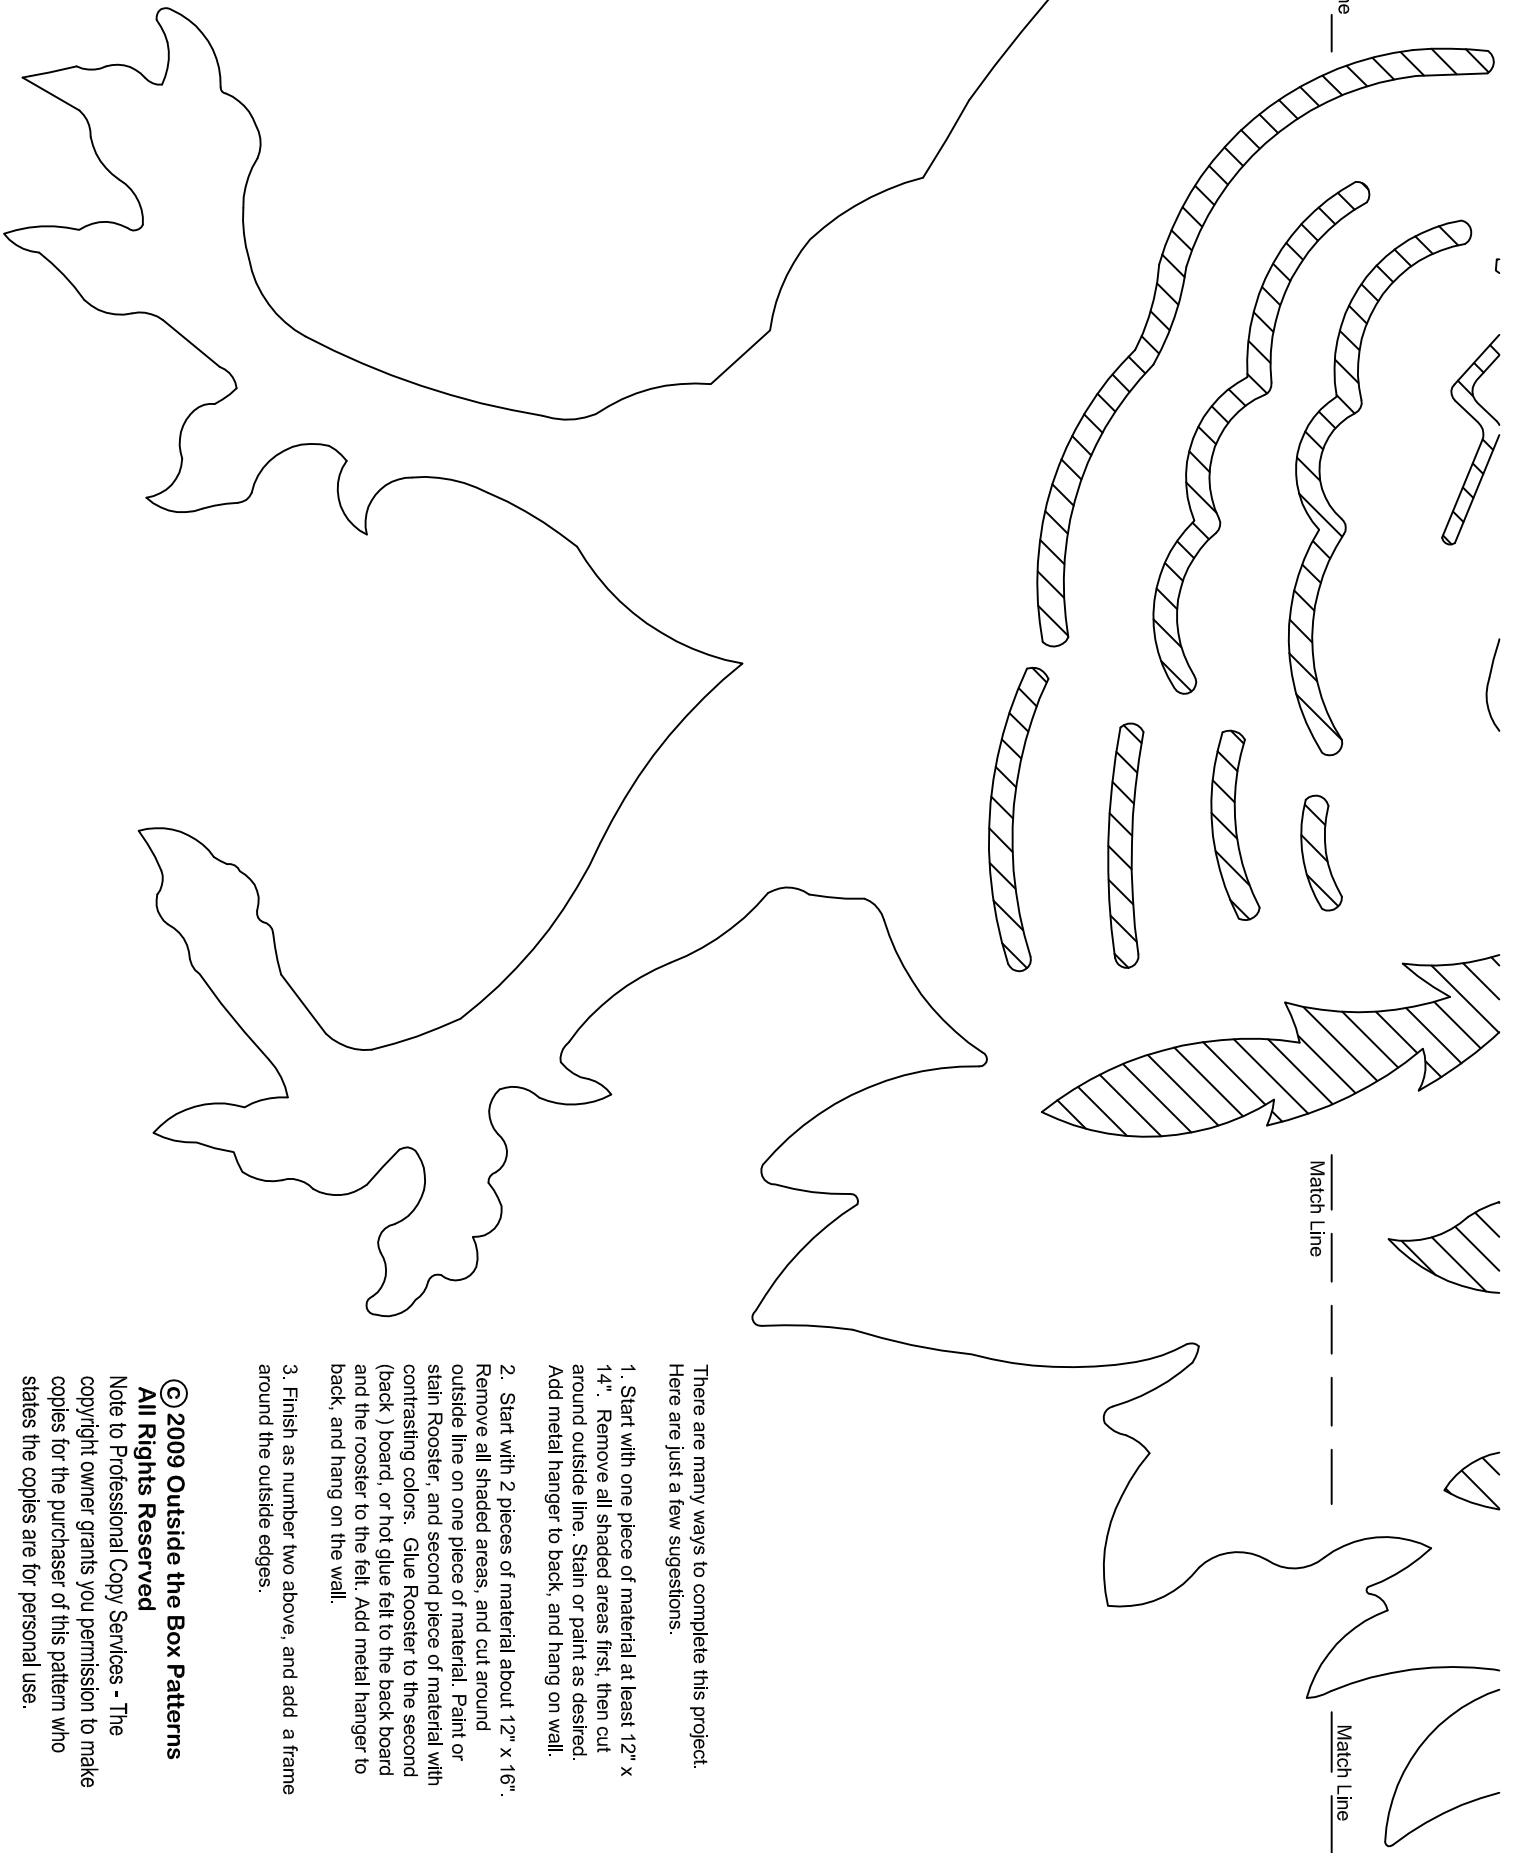

1. Cut out all shaded areas first.
2. Cut out Rooster along this line.

Match Line

Match Line

Match Line

There are many ways to complete this project. Here are just a few suggestions.

1. Start with one piece of material at least 12" x 14". Remove all shaded areas first, then cut around outside line. Stain or paint as desired. Add metal hanger to back, and hang on wall.
2. Start with 2 pieces of material about 12" x 16". Remove all shaded areas, and cut around outside line on one piece of material. Paint or stain Rooster, and second piece of material with contrasting colors. Glue Rooster to the second (back) board, or hot glue felt to the back board and the rooster to the felt. Add metal hanger to back, and hang on the wall.
3. Finish as number two above, and add a frame around the outside edges.
