

Use a 1/2" radius dowel cut to your material thickness for circle on bridle.  
 Use 3/8" radius dowel cut to your material thickness to use for eye.  
 Stain both dark to match bridle.

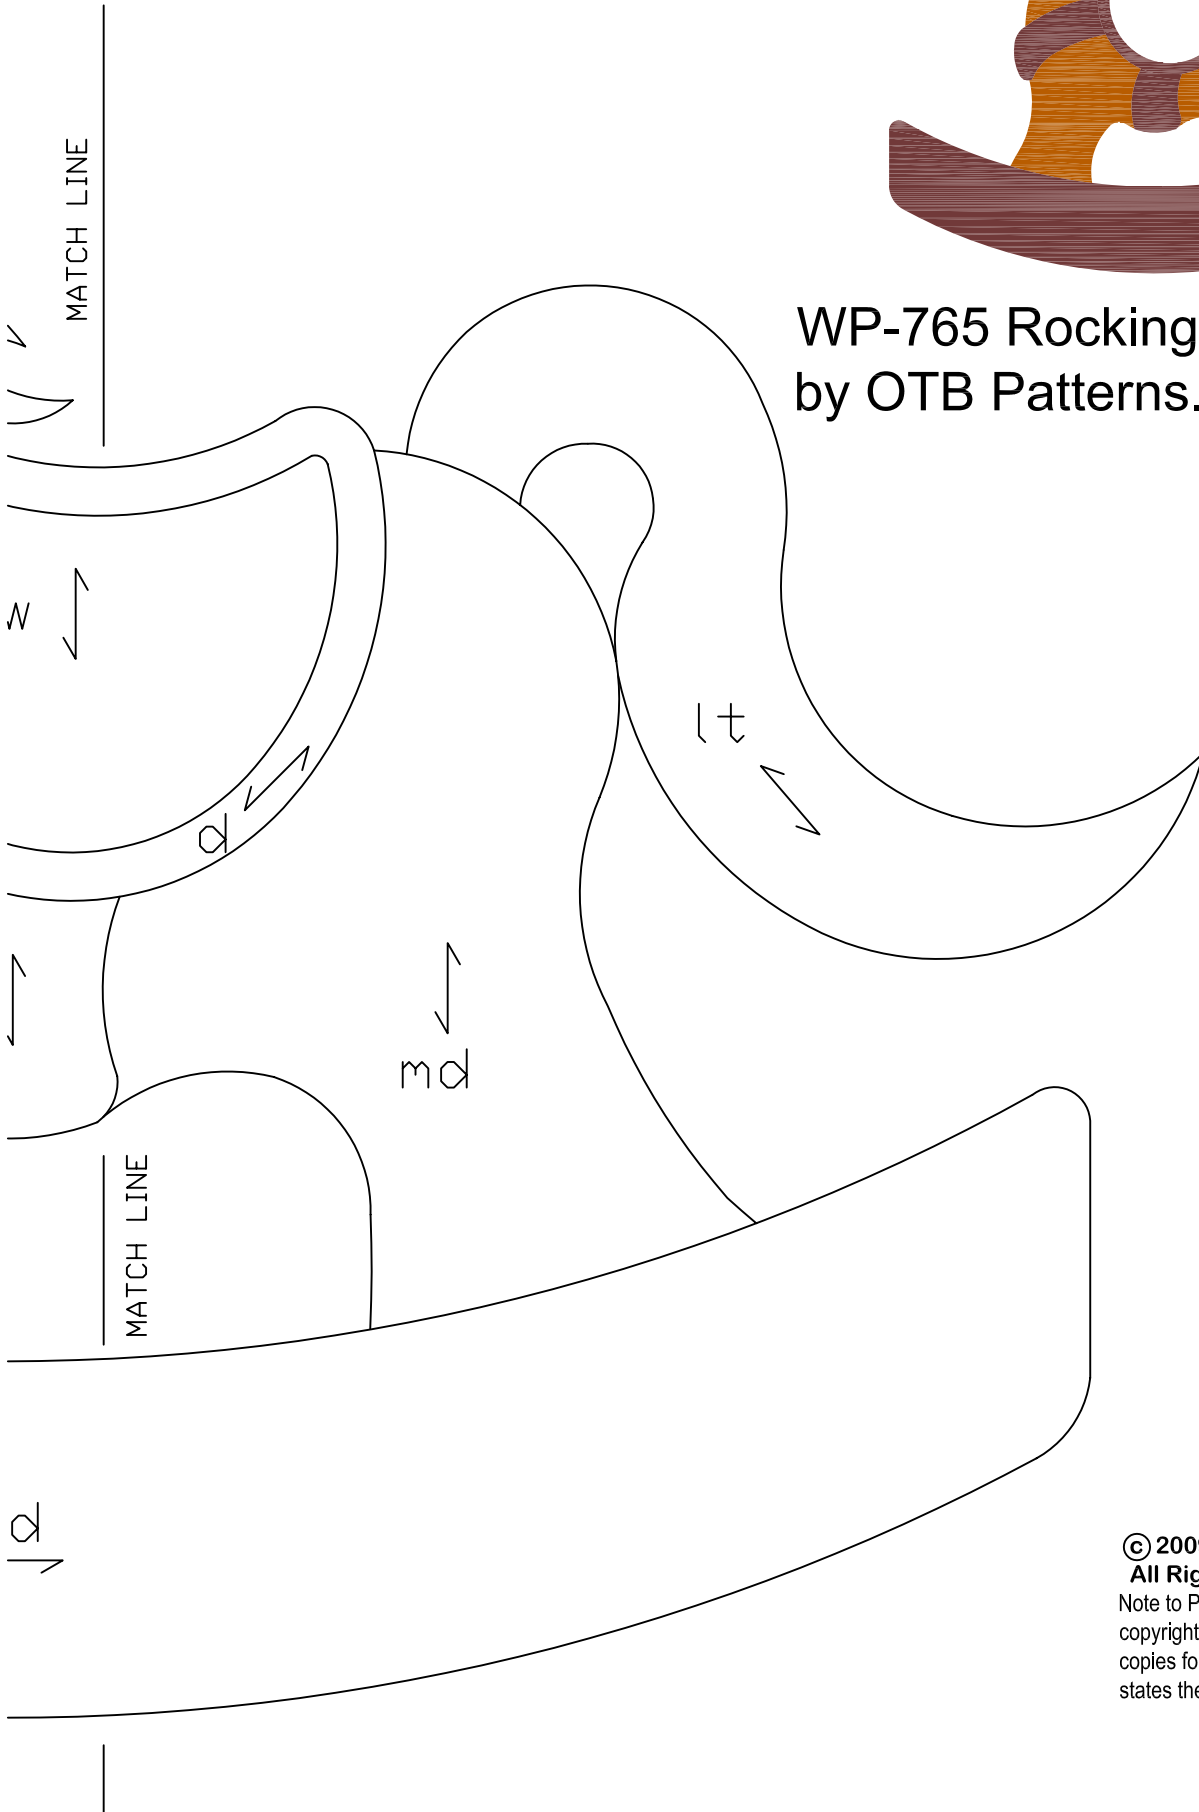

My favorite material to use for this pattern is Western Red Cedar. Many times the best variety of colors can be found in the fence picket pile at your lumber yard. Attach the various pieces of your pattern to your WRC material taking advantage of the color gradations in the wood.

- ← = Grain Direction
- lt = Light shade of wood
- md = Medium Dark shade of wood
- d = Dark shade of wood
- w = White Pine or any white wood
